# AUSTRALIAN BUSINESS LAWYERS ADVISORS (ABLA)

## COVID-19 RISK ASSESSMENT

ABLA approached SafeAssure on behalf of a client in the distribution industry regarding a COVID-19 risk assessment. At this point in time (end of 2021), Queensland businesses were required to conduct a risk assessment to determine if vaccine mandates would be required.

SafeAssure conducted an assessment of the facility with consideration given to the location of the site, current control measures and external factors. Provided to the client was a completed risk assessment report and supporting COVID-19 risk register.

These findings were then used by the client as a basis for the mandatory consultation to be held with the workforce when proposing a vaccine mandate.
